Revision History

The table below will be updated each time this guide is updated providing you with a cumulative list of revisions made to the document.

Version #	Revision Date	Change
3.0	7/1/2025	- The Invalid Flag field now accepts 'Y' as a valid value, indicating that the record submitted to NSLDS is intended to invalidate a previously submitted FVT/GE record on the Student-Level Report. - CSV Formatting Tips section revised.
2.6	4/2/2025	- Revised TA, AA fields for monetary value descriptions that clarify either entering 0 (one zero) or 000000 (six zeros) are acceptable when the value is zero dollars - Added Format Tips: 0 (zero) or more whole dollar amount is required in total amounts columns for TA records and annual amounts columns for AA records. Detail rows can be reordered without issue. - Added column heading letter system as a guide for CSV specifications compatible with Excel
2.5	01/10/2025	Revised AA field descriptions to remove "For AY2016-2017 Standard cohort type, program is not a Qualifying Graduate Program."
2.4	01/06/2025	- Added leading zeros advisement for data fields in "Format Tips." - Added this clarification to NSC source field descriptions: "Note: Do not adjust the pre-populated NSC source fields in the downloaded file. If you want to remove a record, use the Invalid Flag field in the layout and choose the reason code for excluding a record from the Student Level Report." - Program Enrollment Begin Date field, Valid for Record Type was corrected to read "TA, AA" instead of "AA." - College Student ID field description added: " Do not adjust the College Student ID field even if it is fewer than 20 characters."
2.3	12/05/2024	- Updated TA/AA field descriptions related to QGP - Revised TA/AA field descriptions to clarify QGP advisement "Program is not a Qualifying Graduate Program" changed to read "For AY2016-2017 Standard cohort type, program is not a Qualifying Graduate Program"

Introduction

This document provides the specifications for student-level reporting of Financial Value Transparency (FVT) and Gainful Employment (GE) data to the National Student Clearinghouse for our FVT/GE reporting solution.

To start, it's important to understand how the National Student Loan Data System (NSLDS) defines GE and eligible non-GE programs in its [FVT/GE user guide](#). Our student-level reporting file layout follows the NSLDS definitions.

Per NSLDS, for GE programs only:

- If a student has graduated or withdrawn in multiple eligible programs schools will report the student separately for each program at the six-digit OPEID level. If a student has graduated or withdrawn in the same program across multiple locations, the school reports the student only once at the six-digit OPEID level. Schools are required to combine all costs and debt from each location into a single record when a student is enrolled in the same program across multiple locations.

Per NSLDS, for eligible non-GE programs only:

- If a student has completed or withdrawn in multiple eligible programs, with the same credential level, schools report only for the program(s) at the six-digit OPEID level that the student completed. Schools will NOT report a separate TA record on the program from which the student withdrew. For the program the student completed, the school will report totals for the student's entire enrollment at the same credential level at the institution.
- If a student has completed or withdrawn in multiple eligible programs, with different credential levels, schools report a TA record for each program at the six-digit OPEID level from which the student completed or withdrew from.

Comma Separated Value (CSV) File Layout

1. All comma fields will be provided in the file by the National Student Clearinghouse (NSC).

2. Formatting tips:

- Your file upload must be in .csv format and use the file naming convention: 6DigitOPEID_YEARYEAR (e.g., 001234_20222023). You must **maintain the leading zeros within the file to avoid errors**. The columns with potential leading zeros are:

B - Institution Code (OPEID)
D - Student Social Security Number
I - CIP Code
J - Credential Level
K - Published Length of Program
M - Weeks in Title IV Academic Year
AJ - College Student ID

- Maintain all rows, records, columns, column headings reflected in the original downloaded award year's student cohort file. Adding or removing rows or changing columns/headings will result in errors. To exclude a record from the file, use the Invalid Flag field and select the appropriate reason code for excluding the record.
 - Detail rows can be reordered without issue.
 - Values are not case sensitive.
- Each award year student cohort file must include only one award year's data. The file will fail upload if there is more than one award year in the award year student cohort file (Example: AY 2023-2024 student cohort file cannot reflect records for AY 2022-2023).
- For records where an Invalid Flag field does not apply, the amount field value of 0 or more whole dollars must be populated for the appropriate record type. Total amounts must be populated for TA records only. Annual amounts must be populated for AA records only.
 - Amount fields can be blank for an Invalid Flag indicator other than "N" or space.
 - Amount fields can be blank for the Comprehensive Transition and Postsecondary (CTP) Program Indicator OR the Approved Prison Education Program Indicator, if it is "Y."
- Cost, Fees, and Total Amount fields must contain only numbers and report only whole dollars without dollar signs, commas, or decimal points.
- The following fields or values that indicate "for NSC use only" are for internal purposes only and will not be included in the final Student Level Report file sent to NSLDS.
 - Invalid Flag
 - GE Program Flag
 - College Student ID
- At least 80% of data for each award year student cohort file must be included, otherwise the file will fail upload. Do not delete rows in the file. To exclude a record from the file, use the Invalid Flag field and select the appropriate reason code for excluding the record (row).
- "CCYYMMDD" represents a date (e.g., July 1, 2020, is 20200701)
C = Century Y = Year M = Month D = Day of the month
- "CCYYCCYY" represents a range of years (e.g., July 1, 2020, through June 30, 2021, is 20202021)
C = Century Y = Year C = century Y = Year

Detail Record = TA or AA

Field	Description	Data Type	Size	Mandatory/ Optional/ Conditional	Valid for Record Type	Source	Column
Record Type	Two characters that indicate type of detail record. Valid values: TA or AA. Note: Do not adjust the pre-populated NSC source fields in the downloaded file. If you want to remove a record, use the Invalid Flag field in the layout and choose the reason code for excluding a record from the Student Level Report.	Character	2	M	TA, AA	NSC	A
Comma	Comma	Character	1	M			
Institution Code (OPEID)	The institution's 8-digit ED Office of Postsecondary Education (OPE) code used to identify the institution. Note: Do not adjust the pre-populated NSC source fields in the downloaded file. If you want to remove a record, use the Invalid Flag field in the layout and choose the reason code for excluding a record from the Student Level Report.	Number	8	M	TA, AA	NSC	B
Comma	Comma	Character	1	M			
Award Year	Award year the student was enrolled in the program. Format must be CCYYCCYY. Valid values: - For Standard: 20162017, 20172018, 20182019, 20192020, 20202021, 20212022, 20222023, or 20232024 - For Transitional: 20222023 or 20232024 Note: Do not adjust pre-populated NSC source fields in the downloaded file. If you want to remove a record, use the Invalid Flag field in the layout and choose the reason code for excluding a record from the Student Level Report.	Number	8	M	TA, AA	NSC	C
Comma	Comma	Character	1	M			
Student Social Security Number	Social Security number of a student enrolled in an FVT/GE Program. Note: Do not adjust pre-populated NSC source fields in the downloaded file. If you want to remove a record, use the Invalid Flag field in the layout and choose the reason code for excluding a record from the Student Level Report.	Number	9	M	TA, AA	NSC	D

Comma	Comma	Character	1	M			
Student Middle Name	Student's current middle initial. Note: Do not adjust the pre-populated NSC source fields in the downloaded file. If you want to remove a record, use the Invalid Flag field in the layout and choose the reason code for excluding a record from the Student Level Report.	Character	35	O	TA, AA	NSC	F
Comma	Comma	Character	1	M			
Student Last Name	Student's current last name. Note: Do not adjust the pre-populated NSC source fields in the downloaded file. If you want to remove a record, use the Invalid Flag field in the layout and choose the reason code for excluding a record from the Student Level Report.	Character	35	M	TA, AA	NSC	G
Comma	Comma	Character	1	M			
Student Date of Birth	Student's date of birth. Format must be CCYYMMDD. Note: Do not adjust the pre-populated NSC source fields in the downloaded file. If you want to remove a record, use the Invalid Flag field in the layout and choose the reason code for excluding a record from the Student Level Report.	Number	8	M	TA, AA	NSC	H
Comma	Comma	Character	1	M			
CIP Code	Six-digit Classification of Instructional Programs code (without period) identifying a program's academic content. Must be a valid CIP Code from the 2010/2020 list of available codes. Note: Do not adjust the pre-populated NSC source fields in the downloaded file. If you want to remove a record, use the Invalid Flag field in the layout and choose the reason code for excluding a record from the Student Level Report.	Character	6	M	TA, AA	NSC	I
Comma	Comma	Character	1	M			

Field	Description	Data Type	Size	Mandatory/ Optional/ Conditional	Valid for Record Type	Source	Column
Credential Level	Credential level of the program the student was enrolled in during this award year. Valid values are: • 01: Undergraduate certificate or Diploma program • 02: Associate degree • 03: Bachelor's degree • 04: Post-baccalaureate certificate • 05: Master's degree • 06: Doctoral degree • 07: First professional degree • 08: Graduate/professional certificate Note: Do not adjust the pre-populated NSC source fields in the downloaded file. If you want to remove a record, use the Invalid Flag field in the layout and choose the reason code for excluding a record from the Student Level Report.	Character	2	M	TA, AA	NSC	J
Comma	Comma	Character	1	M			
Published Length of Program	The length of the instructional program in weeks, months, or years as published by the school. Format "nnnnnn," with an implied decimal point between the 3rd and 4th digit. For example, schools would report: • 4 years as 004000 • 1.5 years as 001500 • 6 months as 006000 • 26 weeks as 026000 Value must be numeric and greater than zero. Note: Do not adjust the pre-populated NSC source fields in the downloaded file. If you want to remove a record, use the Invalid Flag field in the layout and choose the reason code for excluding a record from the Student Level Report.	Number	6	M	TA, AA	NSC	K
Comma	Comma	Character	1	M			

Field	Description	Data Type	Size	Mandatory/ Optional/ Conditional	Valid for Record Type	Source	Column
Published Length of Program Measurement	The unit of measure for the length of the instructional program as published by the school. Values are: - W: Weeks - M: Months - Y: Years Note: Do not adjust the pre-populated NSC source fields in the downloaded file. If you want to remove a record, use the Invalid Flag field in the layout and choose the reason code for excluding a record from the Student Level Report.	Character	1	M	TA, AA	NSC	L
Comma	Comma	Character	1	M			
Weeks in Title IV Academic Year	The total number of weeks of instruction in the program's academic year. Report when Published Program Length Measurement is "W" or "M." If not reported, enter "000000." Format "nnnnnn," with an implied decimal point between the 3rd and 4th digits. For example, schools would report: 26 weeks: 026000 30 weeks: 030000 Note: Do not adjust the pre-populated NSC source fields in the downloaded file. If you want to remove a record, use the Invalid Flag field in the layout and choose the reason code for excluding a record from the Student Level Report.	Number	6	M	TA, AA	NSC	M
Comma	Comma	Character	1	M			
Comprehensive Transition and Postsecondary (CTP) Program Indicator	Flag to indicate if the program is a Comprehensive Transition and Postsecondary (CTP) Program. Valid values are: - Y: Yes - N: No - Space: No	Character	1	O	TA	School	N
Comma	Comma	Character	1	M			
Approved Prison Education Program Indicator	Flag to indicate if the program is an Approved Prison Program. Valid values are: - Y: Yes - N: No - Space: No	Character	1	O	TA	School	O
Comma	Comma	Character	1	M			

Field	Description	Data Type	Size	Mandatory/ Optional/ Conditional	Valid for Record Type	Source	Column
Date Student Completed or Withdrew from Program	The date of student's graduation or withdrawal from the FVT/GE program. Format must be CCYYMMDD. Note: Do not adjust the pre-populated NSC source fields in the downloaded file. If you want to remove a record, use the Invalid Flag field in the layout and choose the reason code for excluding a record from the Student Level Report.	Number	8	M	TA	NSC	P
